

List of changes made to the Financial Instrument Specification TMS Connect Professional.

From 15th of September 2019.

1. Change in the method of quoting **GASOLIN.pro** instruments.

The change is only technical (it will not affect the client's financial result)

GASOLIN.pro

Nominal value of 1 Lot: **Present:** the price of 1 gallon of gasoline * 42,000 USD

After change : the price of 1 gallon of gasoline * 420 USD

<u>Pip value</u>	Present: 0.0001	After change: 0.01
<u>Tick size:</u>	Present: 0.0001	After change: 0.01
<u>Min. transaction step:</u>	Present: 0.0001	After change: 0.01

The following values will be adjusted proportionally to the trading step change: "Quotes tolerance (for incorrect price)".

The changes **are only technical** to the new way of quoting the above mentioned financial instrument.

The above changes **will not affect** the financial result.

2. Change in the method of quoting **HOIL.pro** instruments.

The change is only technical (it will not affect the client's financial result)

HOIL.pro

Nominal value of 1 Lot: **Present:** the price of 1 gallon of heating oil * 42,000 USD

After change : the price of 1 gallon of heating oil * 420 USD

<u>Pip value:</u>	Present: 0.0001	After change: 0.01
<u>Tick size:</u>	Present: 0.0001	After change: 0.01
<u>Min. transaction step:</u>	Present: 0.0001	After change: 0.01

The following values will be adjusted proportionally to the trading step change: "Quotes tolerance (for incorrect price)".

The changes **are only technical** to the new way of quoting the above mentioned financial instrument.

The above changes will not affect the financial result.
